We can find no specification regarding survey for pole vault runway. Are similar survey steps required for pole vault runway?

**Requested by:** Letha Price  
B.A. Construction Services LLC

**Response:**

The survey requirements respective to planarity and track length verification within the track area and the pole vault event are set forth in SECTION 321126 of the contract documents. These requirements shall be implemented as stated in the project specifications. The architect shall be informed of any discrepancy or deviation from the specifications prior to execution of the survey and the next level of construction.
