Subject: Buried CATV line in Field E

Drawing:

Spec Section:

Cost Impact: None

Schedule Impact: None

Request:

Date Required: 9/29/2008

A buried CATV line runs through the NE corner of Field "E". There is also a concern with the power pole location and depth. Please advise.

Requested by: Letha Price
B.A. Construction Services LLC

Response:

With respect to a field meeting on 09/17/08 further exploratory work was needed to determine the buried depth of both the CATV line and the power poles. It is Elan's understanding that B.A. Construction Services, LLC(B.A.) would arrange for the exploratory work and provide Elan with the findings for a determination on how to proceed. To date the buried depth for the CATV cable has not been provided. However, B.A. Construction Services, LLC has confirmed that a buried depth will be provided to Elan for determination on how to proceed. The in ground depth of the power poles has not yet been provided. B.A. has contacted the appropriate utility company and will provide Elan with the buried depth of the poles for comparison to the revised grading in that area. See sheets MOD-2,MOD-2a and MOD-2b submitted on 09/25/08 for revised grading.
